

Other Products

Securabike designs and manufactures additional products and accessories and provides services specifically for the bicycle industry. This range of 'extras' further illustrates the commitment and support Securabike has developed to promote increased cycle usage throughout the nation.

Custom Manufacture

While this Handbook primarily relates to the standard product range, Securabike is first and foremost a metal engineering and manufacturing company and is well positioned to assist in the design, manufacture and installation of custom designed products.

A Diverse Range of Products

- Bicycle rack hire service – for temporary events like fundraising cycle rides
- Removable anchors – for use in casual or temporary rack installations
- Security racks and anchors for motorbikes and motor scooters
- Polypropylene protective sleeves – available as an option on many rails and racks.
- Stair ramps – where stairs are in regular use by cyclists
- Bicycle gate for turnstiles – allows cyclists to enter secure areas with their bicycle.
- Container bicycle storage – making use of shipping containers on building and mining sites.

Note.

These products do not fall under the scope of AS2890.3.

Other Securabike Products

EBIKELOCK

Electronic lock for central control of individual bike spaces.

It is ideal for use on our CBR4SC bike racks within cages and end of journey facilities.

A proximity card is issued to the cyclist to allow access to the parking area and / or the individual bicycle parking space. Upon the cyclist arriving to the area and scanning their card, the magnetic lock will release and gravity will make the cable fall away from the security rail.

The cyclist simply takes the cable and wraps it around the bike frame and wheel and inserts the magnetic striker at the end of the cable into the lock and it engages automatically. When the cyclist returns, upon scanning their proximity card, the magnetic lock disengages releasing their bike.

The system can be linked to the site's security or can stand alone which allows property managers to charge for the bicycle space.

CBRLOCK

Cable Lock on Racks and Rails

Perfect for casual or event parking such as cafes, restaurants, wineries and alike. Visiting cyclists do not have to carry a lock to your location. Once a cyclist's bicycle is secured, they can relax and stay longer.

To use the cable lock, a cyclist would place the cable around their bicycle frame and wheel and lock the bike. Once locked, the key can be removed. When the cyclist returns, they insert the key and unlock their bike. The key is captured in the lock for the next user.

Other Securabike Products

Bicycle Rack Hire Demountable

Total Parking Package

Securabike offers a range of demountable and portable bicycle hitching rails for hire. The racks are ideally suited to the hire market and large bicycle events. Securabike will deliver and erect the required number of racks prior to and dismantle and remove the racks after the event.

Note: Bicycle Rack Hire is limited to capital cities where Securabike branch offices are located (refer back cover of this Handbook). Please check with your closest Securabike sales office regarding availability and hire costs.

Removable Anchors RA 10

Ideal installation method for bicycle rails or racks that are used casually or temporarily. A 10mm grub screw is fitted to the anchor when the rail or rack is not in use.

Other Securabike Products

Bicycle Rack Hire Flat Pack

The **BR01C** rack comes flat packed and folds away after use for easy storage. Cyclists will use their seat or handlebars to mount their bicycle onto the rack. Capacity is nominal as it is not governed so spacings of a bike every 300mm is possible although cramped. If planning for triathlon events then aim for 600mm spacings per bike.

Other Securabike Products

Polypropylene Plastic Sleeves

Securabike has developed these spiral plastic sleeves to provide added protection to bicycles by preventing metal to metal contact. They are available as an option on many of Securabike's rails and racks – look for the option to indicate which products.

Turnstile Bicycle Gate

BTFB1120

Optional Bicycle Entry Gate
740

Allows cyclists to enter secure areas and sites by pedestrian turnstile while wheeling their bicycle through the adjoining bicycle gate.

Container Storage

Shipping containers can be easily converted to a secure bicycle parking facility by installing Securabike vertical rails or by 'angling' the popular CBR4SC horizontal rack.
