

## End-of-Journey Facilities

Leda have developed a number of standard cage designs that cater for both below and above ground applications, they can be modular or specifically designed to suit the building or project.

Our cages can be modified or changed to accommodate:

- Timber
- Steel mesh
- Stainless Steel wire cladding

Roof designs can be either:

- Flat, or
- Pitched

Optional guttering and downpipes can also be added.

Leda's experienced staff can assist with layout designs and product selection to ensure you optimise the number of cyclists that can be accommodated.
