

*Sydney*

*Melbourne*

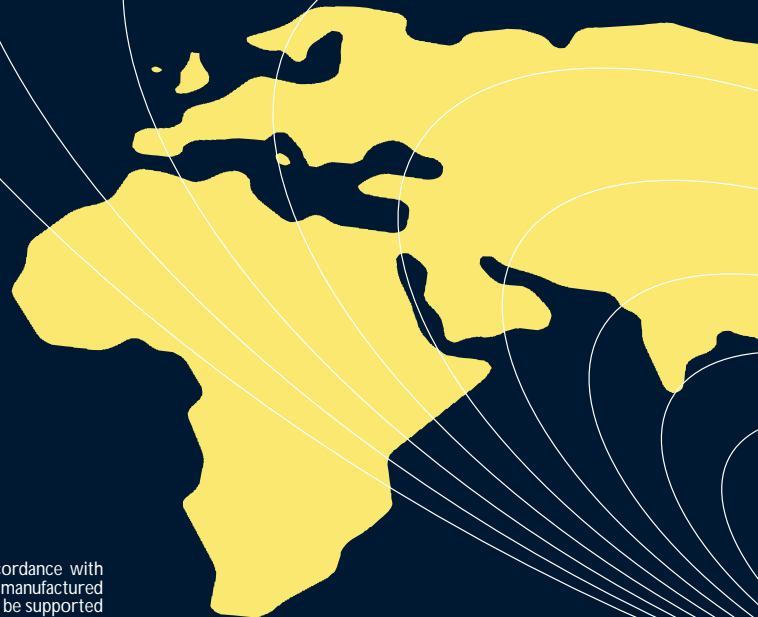

Leda is the world-wide market leader in the design and manufacture of stylish, mechanical security products.

Leda's Securabike range is the most comprehensive of any manufacturer.

Established in 1987, Leda's head office and manufacturing facilities are located in Sydney, Australia with branch offices in Melbourne and Brisbane and a distribution network across Australia.

Leda is one of the world's largest manufacturers and suppliers of mechanical security products, with a growing number of international distributors throughout Asia, the Middle East, Europe and North America.

*Brisbane*

All Leda Securabike rails, racks, lockers and cages are manufactured in accordance with Australian Standard AS2890.3-1993. It is imperative that such products be manufactured and installed by a qualified and reputable manufacturer so that the product can be supported with technical advice.

When selecting or specifying Securabike products, it is advisable to consult directly with Leda to ensure that specifications have not been altered. Leda can also advise on the suitability of your selection for a particular application.

Due to the nature of the printing process, product finishes displayed may vary from the actual product. Be sure to see the colour charts and product samples available from your local Leda Sales office.
