LEDA is at the forefront of designing, manufacturing and installing bike racks for schools, universities, councils, commercial buildings, strata and End-of-Trip (EOT) facilities.

Our engineering and design team has recently developed a bicycle rack that allows cyclists to park and charge an ebike securely and safely at the same time.

Features includes:

- Allows ebike charging
- AS2890.3 compliant bike rack
- Comes as flat packed for easy transportation
- Available in range of colours and finishes
- Allows to park and charge up to 4 bikes (per rack)
